Why the need for **quality, affordable healthcare** solutions?

Access to healthcare is an integral component of an individual's health and wellbeing.

Private healthcare solutions, like medical schemes, remain unaffordable to many South Africans.

Momentum Health4Me offers cost-effective healthcare cover to individuals earning less than R30 000 per month.

How does it work?

In line with Momentum's focus on innovation and flexibility, Momentum Health4Me follows a building block approach. You can choose the combination of benefits most suitable to your needs and available budget.

Momentum Health4Me offers you great value by applying our extensive experience and skill in the field, as well as our strong provider network partnerships, to facilitate the cost-effective provision of healthcare insurance to many South Africans.

Make the **smart** choice

COVID-19 has forever changed the way in which we consume and access healthcare. It has forced us to rethink our approach to healthcare and seen us embracing the new digital age in healthcare, like virtual doctor consultations. We all previously incurred travel costs to get to the doctors' rooms and spent time in waiting rooms with other sick patients, but we are now seeing a smarter, more patient-centric approach.

Members can now choose how they want to engage with the doctor:

- in person, or virtually with access to qualified GPs at Hello Doctor
- anywhere, at any time and in their chosen language
- no more spending time in waiting rooms
- all from the comfort of their own homes
- easy access from the palm of their hand.
